GROWTH OPPORTUNITIES IN INTELLIGENT MANUFACTURING

Connecting People, Machines, Advanced Materials & Technology

NOW
VIRTUAL

OCTOBER 7-9, 2020 | INDIANAPOLIS, IN

Meet virtually with Leading Smart Technology Companies from the United States!

Discover Global Markets: Growth Opportunities in Intelligent Manufacturing is a dynamic 3-day business development matchmaking forum focused on bringing together international executives across multiple advanced manufacturing/smart technology industries, including automotive, aerospace, and energy storage.

Automation &
Digital Services

Transportation:
Aerospace & Auto

Energy Efficiency
& Storage

Through participation in this virtual matchmaking forum, you will have the opportunity to **explore new business partnerships** with U.S.-based CEOs/presidents, sales and supply chain representatives and business development managers who are seeking to expand their international distribution and/or develop joint venture opportunities.

What U.S. Products and Services Will Be Included?

Manufacturing machinery, composites, electric and autonomous vehicles, next generation batteries, energy storage solutions, automation products, supply and security solutions, wearables, sensors and digital services, among others.

Who Should Attend?

- Distributors/agents interested in finding new suppliers
- Manufacturing facility developers searching for intelligent solutions
- Investors interested in investing into manufacturing facility in the United States

Working language of the event is English.
